

Hi Everyone,

You can now play Numbots!

Numbots helps you practise lots of different mathematical skills and can be accessed at any level. It is therefore, more suitable for Year1 than TT Rockstars.

Go to:

- play.numbots.com and put in your TT Rockstars login details. (If you have forgotten these email me).

You can also download the app from the Play Store.

- Set up your 'Numbot' by clicking on the arrows.
- Choose your Numbot name.
- Start with the 'Story Mode'.
- Click on 'Rust' and answer the easy questions first.

You will soon move onto more challenging levels.

Have fun!

Mrs Clark
