

Dear Parents/Carers

For the week beginning **Monday 19th November 2018**

Topic this term: **Colour - The Mixed-Up Chameleon**

We will be:

- Finding one more and one less than a number.
- Doing science experiments with colour.
- Colour mixing.
- Creating our own mixed-up animals.
- Finding out what 'camouflage' means.
- Investigating animal habitats.

Things you might like to do at home:

- Try some colour mixing. How many colours can you make? Don't forget to upload it to Tapestry!

P.S:

Tuesday 20th November - Family phonics, 3.30-4.00pm. This is the last session.

Book Bags - The children are having trouble getting their book bags into their drawers because of keyrings that some children have attached. It would be easier for the children to say no keyrings please or just one very small one, thank you.
