If a task is set for the children to complete independently, Mrs Cox will still be 'online' until the time that the lessons ends for any additional support or questions. The answers to the mornings maths questions will be read out after the register at 1pm every afternoon to enable the children to self-mark. Afternoon work will either involve a task where the children complete it online and hand it in, or independent work that they will show/share at the beginning of the next lesson. E.g. Previous PSHE work will be shown at the beginning of the next PSHE lesson the following week.
